全自动A4复印纸分切令包机(HONOR -A4系列)由我司引进世界先进技术设计同时进行技术集成创新设计而成,填补了国内空白,缩短了分切机和包裹的时间提高了生产分切和包装效益,开拓了国内先例,达到了国际先进水平。本机适用于复印纸的分切、令包,不同型号适合不同客户产能需求。

Fully Automatic A4 Copy Paper Cut Size Sheeting & Wrapping Machine (HONOR -A4/series) is designed with world wide leading technology and also our new technology. The machine runs fast, reduces labor intensity while increasing capacity much. Different models meet the customers' various capacity demand.

省时省力、高速、稳定
世界领先的分切方式(双回旋刀)
先进的PLC可编程控制系统。
全自动结构,分切包装一次完成,高效生产
分切精度达±0.2mm,达到国际标准
主要电气及机械配件均采用国际高端品牌,满足整机长时间稳定运行的要求

High speed, high capacity: max.210--280m/min
Advanced sheeting technology, double rotary sheeting knives
PLC control, easy operation
Cut-size sheeting and ream packing finished in one pass
Cutting tolerance: ±0.2mm
Most electrical components are from worldwide famous brand.

Three Major Innovative Highlights Meet Age Demand of 21 Century!

Well received cutting-edge technology and technique is fully adopted in the HONOR -A4 Series A4 Cut-Size Sheeting and Wrapping Machine. Various first class automation system is also equipped. Therefore the working speed can be 40reams/min, an cutting precision ±0.2mm. The key parts adopts worldwide famous brands, meeting the demand of long-term stable work. By virtue (our professional technique and strong technology, we make our machine much better than others

三大创新亮点,满足21世纪时代需求

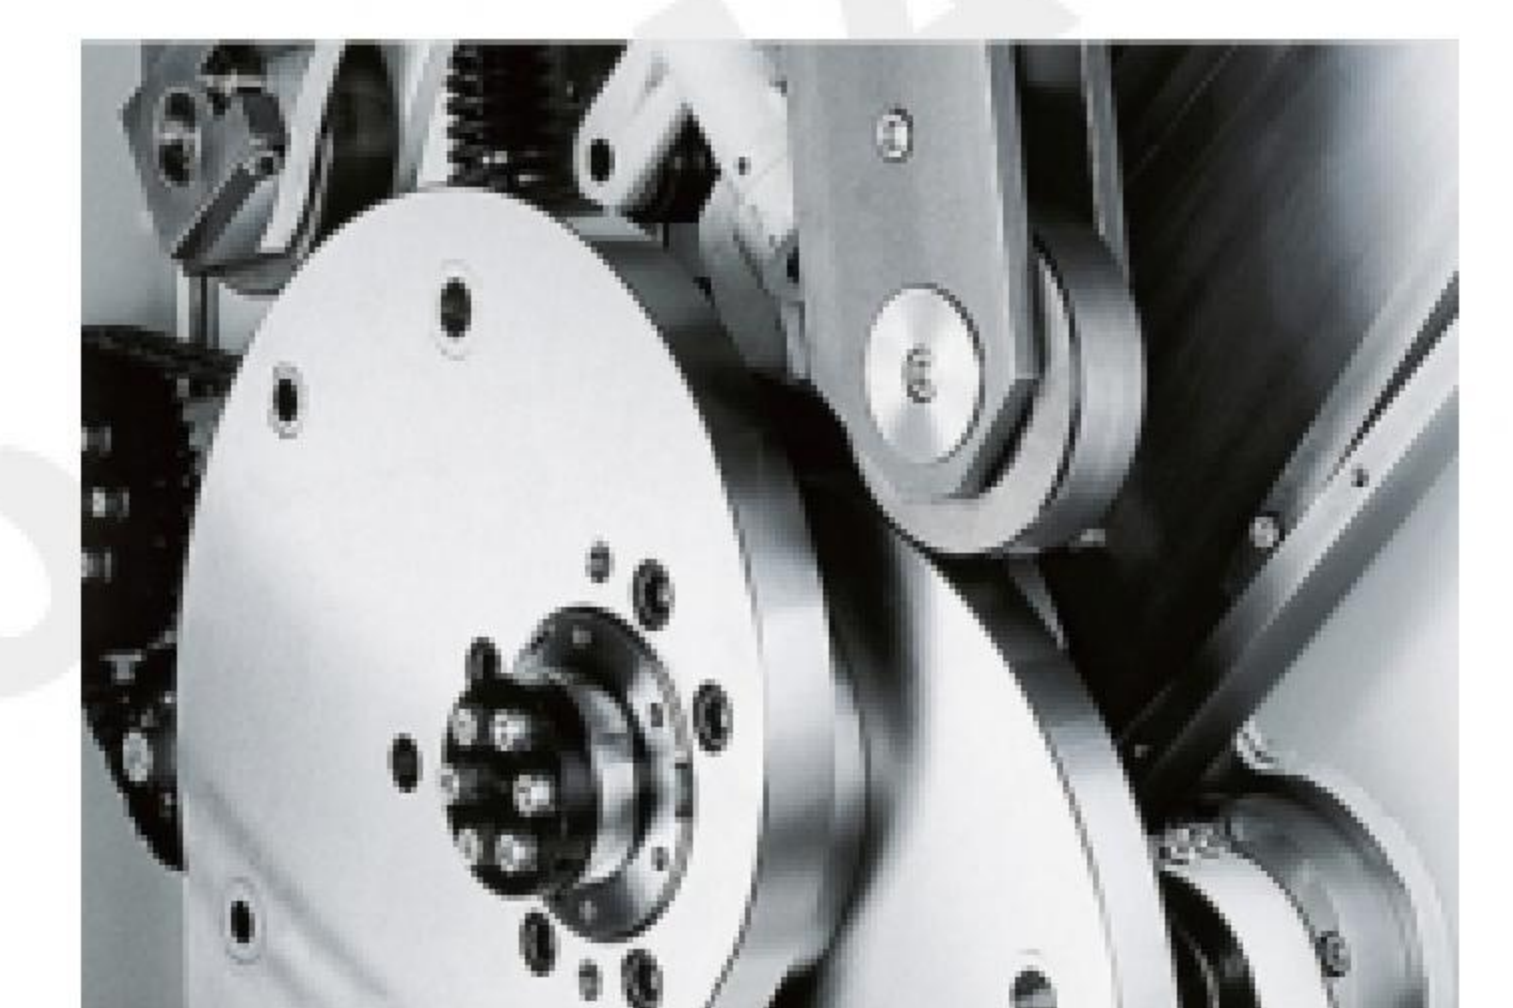

HONOR-A4 充分采用了深受业界好评的尖端技术与工艺,配备各类高水准的自动化系统。生产速度最高可达40包/分钟,精度可达±0.2并配备目前国内最快的连线机。配件均采用国际高端品牌。满足整机长时间稳定运行的要求。凭借独特的专业技巧和雄厚的技术实力可以大幅度缩短作业时间,令其他机器望尘莫及。

Equipped with a new type of high speed unwinding stand, the paper running speed is much improved, upto 40 reams/min, featuring with stable and accurate job.
配备新型的高速上纸架,速度全面提升,最高可达每分钟40包,可以快速准确的完成作业。

Nodular cast iron is firstly used by us in the field as the material of frame, which prevent the machine deforming, which suitable for heavy duty job.
行业内率先采用球墨铸铁,适应高强度工作,保证产量。
